EDUCATION

B.Tech – Electronics and Communication Engineering (ECE) (Pursuing)

DIET, Anakapalli, A.P

Expected Graduation:May 2027

CGPA: 8.2/10

Intermediate (Diploma) – Electronics and communication Engineering (ECE)

DIET,Anakapalli,A.P

April 2024

Percentage : 81.46 %

Secondary School (class x) – Saint Judes English Medium High School

Yellamanchilli , A.P

June 2021

CGPA : 9.47/10

TECHNICAL SKILLS

Programming languages: JAVA, Python

Embedded & ECE: Arduino, Sensors, PCB Basics, Embedded Systems

Tools: VS Code, Eclipse IDE, pyriod3 IDE

INTERNSHIPS

IoT Intern – CEMS (Central Intelligence of Maritime and Ship Building)

4-12-2023 to 20-5-2024

Completion Certificate: [[view certificate](#) ]

* Arduino-based IoT systems using sensors and Wi-Fi | Development, testing, and monitoring of automation solutions |

Exposure to industrial and maritime IoT applications |

PCB Design Workshop – Dadi Institute of Engineering and Technology

3-10-2023 to 7-10-2023

Completion Certificate: [[view certificate](#) ]

* Schematic design, PCB layout, and routing | Fabrication and testing of electronic circuits |

Full stack TCS Ion Career Edge – young Professional course

19-4-2026 to 4-5-2026

Completion Certificate: [[view certificate](#) ]

*Communication skills | Thinking skills for workplace success | Presentation skills | Soft skills |

Resume writing | Group Discussion skills | Interview skills | Effective Email Writing |

PROJECTS

LPG Gas Leakage Detection System with Auto Cut-Off

* Designed and implemented an Arduino-based system to detect LPG gas leakage using sensors.

*integrated automatic regulator cut-off mechanism to prevent fire hazards.

*Implemented buzzer/alert system for real-time warning.

* Gained hands-on experience in embedded systems and safety automation.

Student Management System (Java)

- * Developed a console-based application using Core Java
- * Implemented CRUD operations using Array List
- * Used OOP concepts like classes, objects, and methods
- * Improved understanding of Java collections and logic building

CERTIFICATES

*Python Full stack developer virtual internship [🔗]	Oct-dec 2025
* Google AI-ML virtual internship [🔗]	Jul-sep 2025
* Creative thinking – Infosys springboard [🔗]	Jan 23 2025
